

Bob Hyatt CV

B.Sc. Land Management FRICS, ARSM

A Chartered Surveyor with an unusual level of commercial & business management experience. And, a broad-based professional background with high-level work in all key property market sectors & on investment, conversion & development projects, across the country.

Extensive experience in the successful & long-term management of property portfolios.

Has also spent time in senior management at Board level in the UK private business sector.

This breadth of experience enables a distinctive commercial focus & business insight in all his work on property.

Professional experience over 30 years in all aspects of commercial property, with particular emphasis on strategic advice & project development for Clients. Known for an intensive & forensic approach to problem-solving & acts regularly on finding solutions to key project issues for UK investment & development clients.

Has developed **Hyatt on Property** as a distinctive, skill-based business offering the full range of professional surveying services, across all market sectors, with a singular commitment to service quality & an innovative approach to project delivery.
